

Certain personal care products are now recyclable

Tom's of Maine, a manufacturer, sponsors recycling of certain personal care items with TerraCycle, a national recycler. Eldorado/285 Recycles www.eldorado285recycles.org participates in this program locally which means that you can now recycle the following items:

- Toothbrushes
- Toothpaste tubes
- Dental floss containers
- Non-aerosol deodorant containers

How do you do that?

- By depositing used items in the marked bin in Building B at the LaTienda shopping center in Eldorado.
- Deposit in the marked bin at the Eldorado Senior Center at 16 Avenida Torreon.
- Drop them off at the LaKind Dental Group at 400 Botolph Lane in Santa Fe.
- Ask your dental office if they are partnering with Eldorado/285 Recycles to collect recyclable items from their patients. If so, take your items there.

Want to setup another drop off location?

- If your dental office wants to participate, contact us at eldorado285recycles@mail.com or call Shirley at 505-954-1525.

All proceeds from TerraCycle are donated to a local Santa Fe school.
